EXPERIENCE:

SBI SOFTWARE, PORTLAND, OR— MARCH 2019 - MARCH 2020

FULL STACK WEB DEVELOPER

From UX/UI design to database design/management to application deployment, and everything in between, Developers at SBI do it all.

- Develop front facing consumer applications using React w/ Redux, Express, and Node.
- Database design and implementation using Microsoft SQL Server.
- Participate in development sessions and conceptualizing new products and features.
- Work includes developing new features, supporting existing systems, implementing unit and automation testing, and refactoring monolithic codebases.
- Debug issues of all severity, from unit test bugs to customer-found defects in unfamiliar and complex code Work directly with clients to identify and solve bugs and issues.
- Work with Project Managers in an Agile work environment to simultaneously produce quality products and meet deadlines.
- Day-to-day use of React, Redux, Node, Express, SQL, and Git.

SBI SOFTWARE, PORTLAND, OR— OCTOBER 2018 - MARCH 2019

SOFTWARE REPORTS MANAGER

SBI Software provides a suite of applications, both Web and Desktop, for big box Plant Nurseries to guide them from seed to sale.

- Test client reported issues/bugs
- Communicate with clients about bugs and Custom Crystal Reports
- Manage progress of projects
- Document/troubleshoot errors with reports
- Use SQL Queries to manage/troubleshoot their database
- Create and oversee tasks regarding Custom Reports

ALCHEMY CODE LAB, PORTLAND, OR. — APRIL 2018 - JUNE 2018

WEB DEVELOPER IN TRAINING.

Alchemy is a Full Stack Software Development Bootcamp, teaching full stack Object Oriented Programming and MVC architecture, as well as Agile development practices.

- Working in teams and individually to build Object driven Web apps using JavaScript, Css, Html, Vue.js, Node.js, SQL and Postgresql, Homebrew, Express

OPAL CREEK ANCIENT FOREST CENTER, LYONS, OR

— MARCH 2016- NOVEMBER 2016 AND MARCH 2017- NOVEMBER 2017

ASSISTANT TO THE CHEF

Opal Creek is a Non-Profit Organization, focused on conservation through education in the outdoors. I worked there for 2 Seasons, as a cook, in order to spend time outdoors and self reflect on what direction I wanted to take for my next career path. After I left Opal Creek, I decided to follow my passion for Software Development
